

## Aid disbursement going well, says Najib

**KUALA LUMPUR:** The existing mechanism to channel aid to flood victims is adequate and there is no need for a new system. "There is no excuse for the target groups not to receive the aid if the central agency for aid disbursements in the states and the districts are fully utilised," Deputy Prime Minister Datuk Seri Najib Razak said at the national Christmas Day celebrations at Putra World Trade Centre. He said during his visit to Johor, he found that all the flood evacuation centres were well managed. Najib said financial aid would be disbursed to students who had registered at the flood evacuation centres before the next school session begins on Jan 3. He also said that the rainfall in the southern states had been unexpected.
