

FLOODS HIT SCHOOL

Pupils of SK Kebun Sireh in Bukit Mertajam, Penang, going home after they waited out a flash flood that was caused by a two-hour downpour. The rain, which began at 3.30pm, caused several low-lying areas in the school to be flooded up to 0.5m. Only a small number of students were in school at the time, attending additional classes. They were only allowed to go home after the rain stopped and the flood subsided. Pic by Azrin Muhammad
