

Gemilang fails to emerge

KUALA LUMPUR: The breakthrough at Taman Desa by a tunnel-boring machine under the Stormwater Management and Road Tunnel (SMART) project did not materialise yesterday as boring was slow.

Work by the boring machine, nicknamed Gemilang, will continue today. It was supposed to emerge after boring through 4km of the southern stretch at 4pm yesterday.

A second machine is boring through 6km and will reach its target at the year-end.
